

Gnomon Tax

Planning and Advice for Business Owners

Proactive consulting and financial planning. Modern tax and accounting.

Gnomon means “the one who knows.” It’s also the part of a sundial that turns the sun’s position into information people could use to plan and make the most of the daylight hours. Similarly, Gnomon Tax leverages everything we know and learn about our clients into useful information they can use to get the important decisions right for their business and their life.

How we help

- **Business consulting**

Cash flow, profitability, and decisions about reinvesting in the business or paying yourself.

- **Tax planning and preparation**

Proactive planning, plus business, personal, and real estate investor returns, including S corps, partnerships, and LLCs.

- **Financial planning**

Personal cash flow, retirement, and how business decisions affect the life you’re planning for.

- **Accounting and payroll**

Bookkeeping and cleanup, payroll, and the related filings, including W-2s and 1099s.

The Gnomon Method

01

Calibrate

02

Indicate

03

Orchestrate

04

Compound

Calibration Plan

Your position, planning opportunities, and actions with owners and dates.

Sightline Updates

Periodic progress against your goals and what has changed.

Sunset Review

Open year-end decisions and a review of your books.

Compound Report

What your plan has delivered, and what comes next.

Modern and fully virtual

We’re a fully virtual practice built on modern, secure, and cloud-based tools, serving business owners across the western US. Our client portal, e-signatures, and video meetings keep us connected to your numbers all year, so we can plan proactively with you from anywhere.

About Mark Gallivan

Mark, a CFP® professional and Enrolled Agent, brings 21 years in wealth management. Mark founded Gnomon to proactively educate clients about their choices and guide them through making and implementing the decisions that matter for their business and their life.

Curious what you might be missing?

Let’s talk through your business, taxes, and plans. Or start with a free review of last year’s tax return.
